What is Skills International School Student Management System

The School Management System (SMS) is a software application designed to streamline the administrative processes of a school. It offers functionalities for Registering students, Registering teachers and other school-related activities. This School Management System is specially developed for Skills International.

Features in Skills International SMS

- More Security – User Should Enter Correct User Name & Password in Logging form.
- Register Students
- Register Teachers
- Show Database
- User Friendly User Interface Design
- And much more

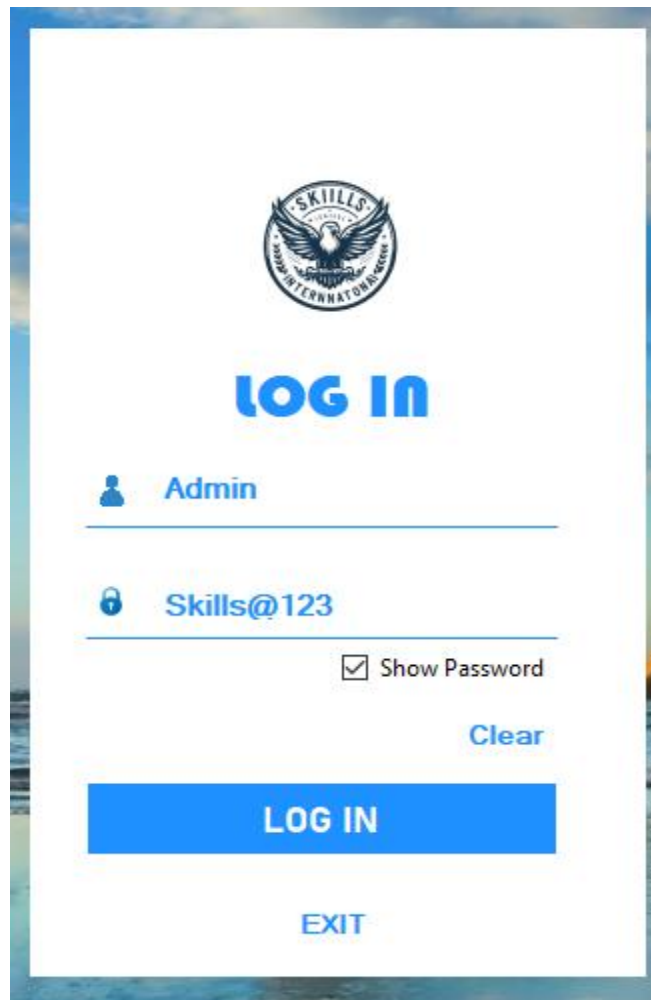

System Requirements

- Operating System - Windows 10 or higher Version
- Ram – 4GB (8GB Recommended)
- CPU – Core i3
- Hard Disk Space – 100MB

How to Use Skills Management System

01. Logging to System

- I. Double Click Icon and Open Software
- II. Now you can see Login Form

The image shows a login window for the Skills International SMS system. At the top center is the Skills International logo, which features an eagle with spread wings inside a circular border with the text 'SKILLS INTERNATIONAL'. Below the logo, the words 'LOG IN' are displayed in large, bold, blue capital letters. Underneath, there are two input fields. The first field is for the username, with a blue person icon to its left and the text 'Admin' entered. The second field is for the password, with a blue padlock icon to its left and the text 'Skills@123' entered. To the right of the password field is a checkbox labeled 'Show Password' which is currently checked. Below the password field is a blue 'Clear' button. At the bottom of the form is a large blue button labeled 'LOG IN' in white capital letters. Below the 'LOG IN' button is a blue 'EXIT' button.

- III. Then You should Enter Correct Username and password (Username: Admin / Password: Skills@123)
- IV. After Enter Username and Password Click Log IN Button
- V. You can Show and Hide password using Show password Check box.
